

Love Remains

1. When words fade into nothing,
when we are in despair,
when days are empty,
life just is not fair,
the journey that we shared
forever will remain.
Our memories are stronger than our pain.

Chorus: So let us take hold of love.
It fills us from above.
It shines on all our tears,
it shines on all our pain.
Stronger than death is love.
Let's walk here hand in hand.
Let's walk together in this unknown land.

2. So let us stay together
and let us keep up hope.
Together we will get the strength to cope.
When we are still in darkness,
the flame is shining bright,
The land of sorrow sees a shining light.

Chorus

3. Now can you see around you
the sea of little flames,
a countless number,
countless flow of names?
So love remains forever,
the greatest of them all,
It comes as comfort, as a gentle call.

Chorus
